

Mission Statement

The Donna I.S.D. mission is to upgrade all hardware and software components throughout all campuses. Infrastructure will be brought up to date for faster and safer data transfer from a centralized location. This will enhance access of technology resources for administrators, teachers and students. Technology training will be scheduled on a monthly basis for administrators and teachers on the latest software applications. Recruitment of technology trained personnel into our district. Our goal is to give students the opportunity to learn through the use of the latest technology equipment and software to prepare them for a successful future.
