- 1. I checked Noreen's name
- 2. I added sponsored as distributor
- 3. Clicked on update
- 4. She disappeared from here and presumably went somewhere but I do not know where. I need her info to ship the Senior consultant order.

Note - the example above is Barb. I did not do anything to update her. Sorry again.

Also, last week, there was an additional lead, but it disappeared. I did not do anything to that one. Does she appear somewhere else? I think her last name was Medina – but think is the key phrase.

Do we need to get started on the free leads that we got?
